Packed Weight and Dimensions

Code	Description	Weight g	W mm	H mm	L mm
YT 1200	Adjustable Scraper	37	24	24	152

**Instructions**

Do not use heavy pressure when deburring as this will cause the blade to dig into the material and give an uneven finish  
Use light and even pressure which will allow the blade and handle to work together to remove the burr and leave a smooth finish on the component

Blades should be handled carefully as they are sharp and can cut  
Blades can break causing flying objects  
Sharp edges and flying objects can cause injury  
Users and bystanders should wear protective safety glasses  
Do not pry or bend blades  
Keep blades and sharp tools away from children  
Do not regrind blades as this will weaken the blade and cause breakage and possible injury

All Noga products meet the strict requirements of ISO 9001 and ISO 14001
