

Cera Cut

Suitable for deburring plastics and other soft materials  
 Ideal for surface scraping and parting line deflashing  
 Disposable tool with extremely long life  
 Includes:  
 Ceramic Blade:  
 Cutting edge 30mm long  
 Blade width 1.7mm  
 Convexed radius 250mm  
 Mounted in ergonomic design handle with soft grip  
 Maximum Handle diameter 24mm  
 Overall tool length 156mm

Packed Weight and Dimensions

Code	Description	Weight g	W mm	H mm	L mm
CR 1100	Cera Cut	49	27	27	172

**Instructions**

Do not use heavy pressure when deburring as this will cause the blade to dig into the material and give an uneven finish  
 Use light and even pressure which will allow the blade and handle to work together to remove the burr and leave a smooth finish on the component

Blades should be handled carefully as they are sharp and can cut  
 Blades can break causing flying objects  
 Sharp edges and flying objects can cause injury  
 Users and bystanders should wear protective safety glasses  
 Do not pry or bend blades  
 Keep blades and sharp tools away from children  
 Do not regrind blades as this will weaken the blade and cause breakage and possible injury

All Noga products meet the strict requirements of ISO 9001 and ISO 14001
